

Business Requirements Document (BRD)

University Hostel Management System

Version	1.1
Author	Britney Senaratne
Role	Business Process Associate
Date	May 09, 2026

1. Executive Summary

The Hostel Management System is a digital platform designed to streamline student accommodation. It centralizes room browsing, application submission, and resident support services such as maintenance requests and complaint management.

2. Business Scenario

Managing hostel allocations manually presents significant operational risks. This system automates the resident lifecycle from eligibility based application to day to day facility management ensuring fair allocation and efficient service delivery.

3. Functional Requirements

ID	Requirement Description	Priority
FR-01	User Authentication: Students must authenticate via university credentials. The system must display specific error messages for failed login attempts.	Critical
FR-02	Eligibility Validation: The system must verify existing occupancy or pending applications before allowing new submissions to prevent duplicate records.	Critical
FR-03	Document Management: Applicants must upload digital copies of their Student ID and Admission	High

	Letter during the application process.	
FR-04	Application Tracking: Students shall monitor their real-time application status (Pending, Approved, Rejected).	Medium
FR-05	Application Cancellation: Users can only cancel applications that are in "Pending" status.	Medium
FR-06	Maintenance Requests: Residents can submit maintenance requests; access is restricted to students marked as "Current Resident".	Medium
FR-07	Complaint Management: Residents shall have the functionality to submit and track formal complaints through the portal.	Medium

4. Stakeholder Roles (Actors)

- **Student (Applicant/Resident):** Interacts with the system to browse rooms, apply, and manage their stay.
- **Hostel Allocation Database:** The central authority for verifying occupancy, room availability, and resident logs.

5. Business Rules & Logic

- **Single Occupancy Rule:** A student cannot hold more than one active application or room allocation at a time.
- **Cancellation Constraint:** The cancellation feature is automatically disabled once an application status changes to "Approved".
- **Maintenance Access:** Visibility of maintenance features is condition-based, limited to validated "Current Residents".
