PROFESSIONAL SUMMARY

Detail oriented Business Technology Management (BTM) undergraduate specializing in Business Operations and Process Optimization. Proven ability to streamline workflows, improve operational efficiency, and translate business needs into actionable technical specifications. Skilled in Process Mapping and Data Visualization using Draw.io, Mermaid.js, and Power BI to drive data driven decision making and operational excellence

EDUCATION

University of Jaffna Bachelor of Commerce Honors in Business Technology Management	May 2023 -Present
Bandaranayake Central College Veyangoda G.C.E Advanced Level Examination (Commerce Stream)	2019 - 2022
Association of Accounting Technicians (AAT) Sri Lanka Level 2	2019 - 2020
St. Mary's College Veyangoda G.C.E Ordinary Level Examination	2008 -2018

CORE COMPETENCIES

- **Business Analysis & Documentation:** Requirement Gathering, User Stories, BRD/FRD Documentation, Use Case Modeling, System Documentation.
- **Data Analysis & Visualization:** Power BI (Dashboards), Data driven Reporting.
- **Technical Tools:** Draw.io, Mermaid.js, GitHub, Figma (Basics), Microsoft Office 365 (Word, Excel, PowerPoint)
- **Soft Skills:** Analytical Thinking, Stakeholder Communication, Problem Solving, Organizational Skills, Cross functional Team Collaboration.

PROJECTS

Business Process Modeling & System Analysis

- Authored 4 Business Requirements Documents (BRDs), bridging the gap between stakeholder needs and technical solutions for diverse business scenarios.
- Designed Use Case Diagrams and Process Maps using Draw.io, reducing requirement ambiguity for development teams.
- Translated complex operational needs into User Stories, ensuring 100% alignment between business goals and system functionality.

Pharmacy Management System Documentation

- Led the transition from manual inventory to a digital system by defining Functional Requirements and User Stories.
- Developed System Wireframes using Mermaid.js, improving user journey visualization and reducing potential UI/UX friction.
- Streamlined stock management workflows, targeting a 25% reduction in manual data entry errors.

Data Visualization & Business Reporting

- Engineered interactive Power BI dashboards to visualize sales and performance metrics, providing real time visibility into operational efficiency and bottleneck identification.
- Authored structured reports defining data scope and business objectives, translating complex datasets into actionable insights for management.
- Performed trend analysis on historical demand patterns to deliver stock optimization.

CERTIFICATIONS

Foundation of Project Management	University of Moratuwa 2025
Project Scope and Schedule Management	University of Moratuwa 2025
Agile Project Management in ICT Projects	University of Moratuwa 2025
Business Analysis Basics	Simplilearn 2026
Microsoft Power BI for Beginners	Simplilearn & Microsoft 2026

ACTIVITIES & LEADERSHIP

- Collaborated in a team to conduct an onsite company study and coproduced a video documentary analyzing operational workflows.
- Served as the School Badminton Team Captain, represented the University Faculty in Inter Faculty and Open Tournaments, demonstrating team management and strategic planning
